Zdenko Škrabalo

EASD Postgraduate Course on Clinical Diabetes and its Complications

Zagreb, Croatia

23rd - 25th February, 2017

IN THE ORGANIZATION OF EASD – European Association for the Study of Diabetes
LOCAL CO-ORGANISING INSTITUTIONS AND SOCIETIES:
Faculty of Medicine, University of Zagreb
Dubrava University Hospital, Department of Endocrinology, Diabetes nad Metabolic Disorders
Croatian Endocrine Society, Croatian Medical Association
Croatian Association for Diabetes and Metabolic Disorders - Croatian Medical Association
Dear Friends and Colleagues,

We are delighted to welcome you in Zagreb for the Zdenko Škrabalo EASD Postgraduate Course on Clinical Diabetes and its Complications.

The course programme will cover numerous important topics within diabetology with participants having a unique opportunity to listen to, and interact with, prominent diabetologists and researchers from around Europe in an informal setting and gain new insights in the treatment of diabetes and its numerous complications.

We are extremely grateful to all faculty members, who have kindly accepted our invitation to come to Croatia and we do hope that the knowledge shared here will be beneficial to all.

The Course organization would not be possible without the considerable support of the EASD and our partners from the pharmaceutical industry. We greatly appreciate all the companies which, through unrestricted educational grants, made the meeting possible.

However, the biggest thanks should be addressed to you, the course participants, for your interaction, questions and networking. This is key to making these courses so successful.

Welcome to Zagreb and welcome to the Zdenko Škrabalo EASD Postgraduate Course on Clinical Diabetes and its Complications.

Prof. Leszek Czupryniak, MD, PhD.
Chairman of EASD Postgraduate Education Committee

Ass. Prof. Dario Rahelic, MD, PhD.
